COFFEE TALK

Coffee talk is at 8AM on September 30th at the terminal building conference room. Come and have coffee and doughnuts. No restrictions on the topics that are discussed. Membership meeting will be at 10AM after Coffee Talk. The next coffee talk and meeting will be October 30th at 8AM.

COMPASS ROSE PROJECT

Compass rose project on the ramp is an eagle scout project.

CURTISS PUSHER

The model of the 1911 Curtiss Pusher that hung in the ceiling of the terminal building until it was remodeled a couple of years ago is at least 60 plus years old. When we got it down we saw that it need some very tender loving care. Jim Lange one of our members volunteered to repair it and he used his skills that he used to win an EAA award for his Taylorcraft. I do not know how many hours or the amount of money he spent but he did an outstanding job.

The Curtiss Pusher is going to be hung above the incoming door to the terminal building. The Curtiss Pusher is a model of the first airplane to land in Waukesha County in 1912. The model was made by Chuck Flaver in about the late 1960's. It was displayed in the old hangar on the northeast corner of the airport. 1998 when the new terminal building was built the model was displayed in the ceiling outside of the museum display area.

Jim the WAC thanks you for the time and talent you used to repair the model to make it last another 60 years.
